SUMMARY

Highly adaptable and quick-learning Web Developer dedicated to building responsive and user-friendly applications. Proficient in HTML, CSS, JavaScript, React, and Vue, with hands-on experience using Tailwind CSS and Bootstrap to streamline design processes. My background in personalized instruction has honed my problem-solving abilities and patience, allowing me to debug effectively and collaborate seamlessly within diverse teams. Committed to continuous learning and delivering clean, efficient code in fast-paced environments.

TECHNICAL SKILLS: Proficient in core web development languages, including HTML5, CSS3, Python, and JavaScript (ES6+). Experienced with popular frameworks and libraries such as React.js and Vue.js.

SOFT SKILLS

I have a robust set of soft skills, which includes a strong foundation in Time Management, Multitasking, and Task Prioritization to ensure Punctuality and Efficiency & Speed in all responsibilities. I excel at Team Collaboration, Effective Communication, and Active Listening, contributing to a positive work dynamic. Furthermore, I apply Problem Solving, Critical Thinking, and Attention to Detail in my work, maintaining a Positive & Professional Attitude, demonstrating Adaptability, and committing to Continuous Learning.

EXPERIENCE

Tutor, Freelance, July 2024 - October 2025. Cúcuta, Norte de Santander, Colombia.

Tailored instruction methods to individual learning styles, simplifying complex concepts to improve exam performance. Maintained consistent communication with parents, providing detailed updates on progress and strategies to address challenges. Fostered a supportive environment that encouraged critical thinking and logical reasoning and implemented constructive feedback loops to boost student confidence and resilience in problem-solving.

EDUCATION AND TRAINING

Bachelor of Science

Mechatronics Engineering, Universidad de Pamplona, Villa del Rosario, Norte de Santander, Colombia
Expected in December 2027.

Diploma in Web Development (Co-op)

Tamwood International College, Vancouver, BC | Expected Nov 2026

Core Courses:

Web Development Essentials, focusing on Responsive Web Development (HTML/CSS), Front-End Programming with JavaScript, and Powerful Frontend Web Development.
